NATURAL HEALTH PRODUCT

BETAINE / BETAINE HYDROCHLORIDE

This monograph is intended to serve as a guide to industry for the preparation of Product Licence Applications (PLAs) and labels for natural health product market authorization. It is not intended to be a comprehensive review of the medicinal ingredient.

Notes
- Text in parentheses is additional optional information which can be included on the PLA and product label at the applicant’s discretion.
- The solidus (/) indicates that the terms and/or statements are synonymous. Either term or statement may be selected by the applicant.

Date
December 8, 2015

Medicinal ingredients

<table>
<thead>

Directions for use

*Products providing betaine hydrochloride (as a medicinal ingredient or as a source ingredient)*

Duration of use

No statement required.

Risk information

Statement(s) to the effect of

Caution(s) and warning(s)

*All products*

If you are pregnant or breastfeeding, consult a health care practitioner prior to use.

*Products providing betaine hydrochloride (as a medicinal ingredient or as a source ingredient)*
If you have a peptic ulcer or excess stomach acid, consult a health care practitioner prior to use (Hendler and Rorvik 2008; O’Neil et al. 2006).

*Products providing ≥ 600 mg betaine and/or ≥ 780 mg betaine hydrochloride per day*

If you have high cholesterol, consult a health care practitioner prior to use (Olthof et al. 2005; Swab et al. 2002).

**Contraindication(s)**

No statement required.

**Known adverse reaction(s)**

No statement required.

**Non-medicinal ingredients**

Must be chosen from the current Natural Health Products Ingredients Database (NHPID) and must meet the limitations outlined in the database.

**Storage conditions**

Statement(s) to the effect of

No statement required.

**Specifications**

- The finished product specifications must be established in accordance with the requirements described in the Natural and Non-Prescription Health Products Directorate Quality of Natural Health Products Guide.
- The medicinal ingredient must comply with the requirements outlined in the NHPID. In addition, the medicinal ingredient may comply with the specifications outlined in the Betaine monograph, published in the Food Chemicals Codex (FCC 2012), or the Betaine Hydrochloride monograph, published in the United States Pharmacopeia (USP 34).
